

IWaST
International Congress of
**Water Sustainability
and Technology**
19-21 March 2025
Cochabamba, Bolivia

CALL FOR ABSTRACT

What is IWaST?

The partnership between the **Universidad Católica Boliviana San Pablo** and the **Universidad Politécnica de Cataluña · Barcelona Tech** led to the creation of the *International Congress of Water Sustainability and Technology (IWaST)* to be held in Cochabamba, Bolivia from 19 to 21 March 2025. This high-level academic event will allow the presentation of communications and posters in hybrid, in-person, and online modes. Keynote presentations will enrich our thematic areas that will open up debate and exchange of knowledge. The congress will have a book of abstracts and the best communications will have the opportunity to be published in high-impact journals allied to the congress.

The IWaST congress is born from the brotherhood of two recognized international congresses: the International Congress of Integrated Water Management (CIGIA, Universidad Católica Boliviana San Pablo - Bolivia) and the International Congress of Water and Sustainability (CIAS Universidad Politécnica de Cataluña · Barcelona Tech - Spain). The IWaST is a new event that seeks to contribute to the area of water management and sustainability and its wide range of topics.

Why IWaST?

Due to the constant and crucial need to recover and strengthen spaces to talk and relate to water as a common good, it is necessary to establish specific scenarios in which space is given to the development of studies and strategies related to the topic, at the local, national and global level.

IWaST Objective

Disseminate the results of scientific research carried out by researchers around water management and sustainability in order to encourage, promote, and generate synergies between research centers, public and private organizations.

IWaST Schedule

Activity	Date
Call for abstract	15 May 2024
Deadline for abstract submission	19 January 2025
Notification of acceptance	31 January 2025
Early registration deadline	15 February 2025
Final Program	28 February 2025
IWaST	19-21 March 2025

CALL FOR ABSTRACT

How to present your work?

An online platform will be enabled from August 2024 to upload abstracts. The proposed abstract must be aligned with one theme of the IWaST:

- T1. Water Security
- T2. Water Pollution and One Health
- T3. Water Management and Treatment
- T4. Water Sustainability and Life Cycle Assessment (LCA)
- T5. Water Education

Take into account the following guidelines:

- Presenting author confirms that all co-authors are aware of content of the abstract and agree to its submission.
- Abstracts need to be in English, and include a title (maximum of 20 word), author names, email address(es), affiliations and ORCID numbers if relevant.
- Abstract should not exceed 250 words
- Associate 3 to 6 keywords
- All abstracts will be reviewed and evaluated by the IWaST Scientific Committee
- Registered participants can present up to two oral papers or one poster presentation. The IWaST Scientific Committee reserves the right to change the communication from oral to poster status. Author will be informed if this decision is made.
- The deadline for Abstract Submission is 15 September 2024 (BOT).
